

## Opportunities to work with students – 2024-25

We have some exciting opportunities for businesses, employers, community groups and other organisations to work with our students to help them understand and prepare for the world beyond school.

Personal Development Days	Students are off timetable for the day for PSHE, personal development and careers activities. A schedule of topics is shown overleaf	Year 7: 29 April, 9 July Year 8: 5 February, 8 May Year 9: 18 November, 6 June Year 10: 14 January, 19 March Year 11: 14 October FE Fair
STEM Activities	We love STEM activities! Focussing on real life scenarios, students develop their awareness of these subjects, and gain inspiration and aspiration. They also develop personal skills such as teamwork, planning, communication, problem solving and resilience.	
Relevant Engaging Active Learning	To bring the curriculum to life, we love to have employers and professionals to bring deeper awareness and knowledge of the real world to the subjects studied in school. Students also have an opportunity to ask questions about their life and work. This includes guest speakers for assembly or curriculum topics, and careers activities (such as practice interviews) in PSHE	
Pledge	To raise self-confidence and enrich their knowledge of the world about them, particularly the local community, all students are encouraged to do Pledge activities, including volunteering, fund-raising and awareness campaigns as well as extra-curricular activities.	
House Events	Some house events are for all students in a year, some are for particular classes or groups. There will also be competitions which all students are invited to enter. Guest judges are great!	

We have opportunities for guest speakers, careers talks, mentoring, workplace visits, judging competitions, interview skills and more! We would love to hear from you if you are able to help support our students.

If you would like to discuss or volunteer for any opportunities, please contact Kate Thomson, the Careers & Employability Skills Coordinator.
